Increased Filter Life

Both Air Filter Cartridges can offer increased filter life with the use of Quality Filtration materials. Greater material surface area provides increased absorption of oils, water and odours. The natural fibre felt swabs very efficiently absorbs oil from the air stream allowing the compressed air to flow through to the further stages of moisture and odour removal.

Quality Materials

The highest Quality Filtration materials which are manufactured to exacting standards have been chosen for the above Air Filter Cartridges to ensure the most efficient and effective filtration. Our cartridges are manufactured in accordance with European and USA Safety Standards.

No Corrosion

The AFC-C100 and AFC-B100 Air Filter Cartridges are injection moulded polypropylene which will not corrode or collapse like the tin alternatives.

!WARNING! These filter cartridges does not remove carbon monoxide (CO). Carbon Monoxide alarms must be used at all times.
