Title: Airblast Nozzle Holders and Couplings

Airblast New Product Development Information

The New Range of Airblast light weight Nylon Nozzle Holders and Couplings.
 Production of Airblast Nylon Nozzle Holders and Couplings takes off

The new lightweight super-strong Airblast Nylon Hose Couplings are equipped with a new safety-locking device 'easy clip' which automatically snaps into locking position when the couplings are connected. The finest quality of nylon material is used which allows it in strength, durability and weight an advantage over brass. The universal quarter turn design makes it possible to couple different size hoses and couplings made of different material. Airblast Nylon Hose Couplings are manufactured within the narrowest of tolerances assuring a perfect match all the time.

The new Airblast Nylon Nozzle Holder assures a perfect fit every time in combination with wear resistant heavy duty Airblast blast hose resulting in a leak-proof configuration.

The following Nylon Nozzle Holders and Couplings are produced by Airblast:

Nylon Nozzle Holders with 2" (50 mm) Large Thread

Airblast Art.nr.	Model	Fits Blast Hose
21240	NNH-1/50	39 mm OD - 25 mm ID (1")
21250	NNH-2/50	48 mm OD - 32 mm ID (1¼")

Nylon Nozzle Holders with 1¼" Fine Thread

21241	NNH-1	39 mm OD - 25 mm ID (1")
21251	NNH-2	48 mm OD - 32 mm ID (1¼")

Nylon Hose Couplings

21510	CQN-1	39 mm OD - 25 mm ID (1")
21520	CQN-2	48 mm OD - 32 mm ID (1¼")

Nozzle Washers and Coupling Gaskets for use with new Nozzle Holders and Couplings

Airblast Art.nr.	
21411	For model NNH, 1" inlet nozzle
21421	For model NNH, 1¼" inlet nozzle
21651	Gasket for CQN-1
21652	Gasket for CQN-2
