Title: Airblast Climate Control Tube

INTRODUCTION.

The Airblast Climate Control Tube is approved to supply a continuous flow of cool or warm compressed air to your blast helmet.

Facts:

- an operator is **better concentrated** if the air-supply to his helmet is at the correct temperature
- the **productivity and safety** of a blasting or painting operation improve if the operator is properly concentrated
- the available cooling/heating equipment in the market is **expensive and fragile**
- Airblast makes it easy for contractors to make the step towards higher production and better safety and introduces the

Airblast Climate Control Tube

- Cooling capacity 20°C
- Heating capacity 8°C
- Very rugged design
- No wear parts
- Perfect fit in combination with:
 - Airblast Astro Helmet
 - Airblast Extreme and Panorama helmet (our adaptor 40450 required)
 - Many other brands in the market (Bullard, Clemco)

Portable/Stationary Abrasive Blast Equipment - Nozzles - Nozzle Holders - Hoses - Couplings - Lighting
Wetblast Equipment - High Pressure Waterjetting - Personal Protection - Blast Cabinets - Blastrooms
Vacuum Blast/Recovery Equipment - Portable/Stationary Wheelblast Equipment - Dehumidifiers
Pipe Cleaning/Coating - Air Treatment - Mobile Dust Collectors - Media - Paintspray Equipment
Plural Component - Measuring Instruments
