

# MTH-110

Magnetic Thermometer

The MTH-110 Magnetic Thermometer allow immediate measurement of the substrate temperature.

The MTH-110 Magnetic Thermometer measures surface temperature. The thermometer can easily be placed on ferrous substrates with the strong magnet on the back. Surface temperature can be read out in both °C and °F. Measuring Range is -10°C to + 70°C; +14°F to +160 °F. The diameter of the thermometer is 63 mm. Can be used in vacuum. No plastic parts on the outside of the thermometer.

The MTH-110 Magnetic Thermometer for surface temperature comes in a genuine leather pouch with belt-clip.
